

—HOW TO PACK the SYSTEM PIPE—

KAPP & PETERSON, LIMITED.
DUBLIN.

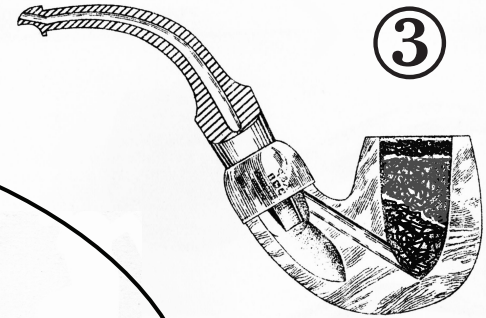

Factory—CUFFE LANE,
ST. STEPHEN'S GREEN

①

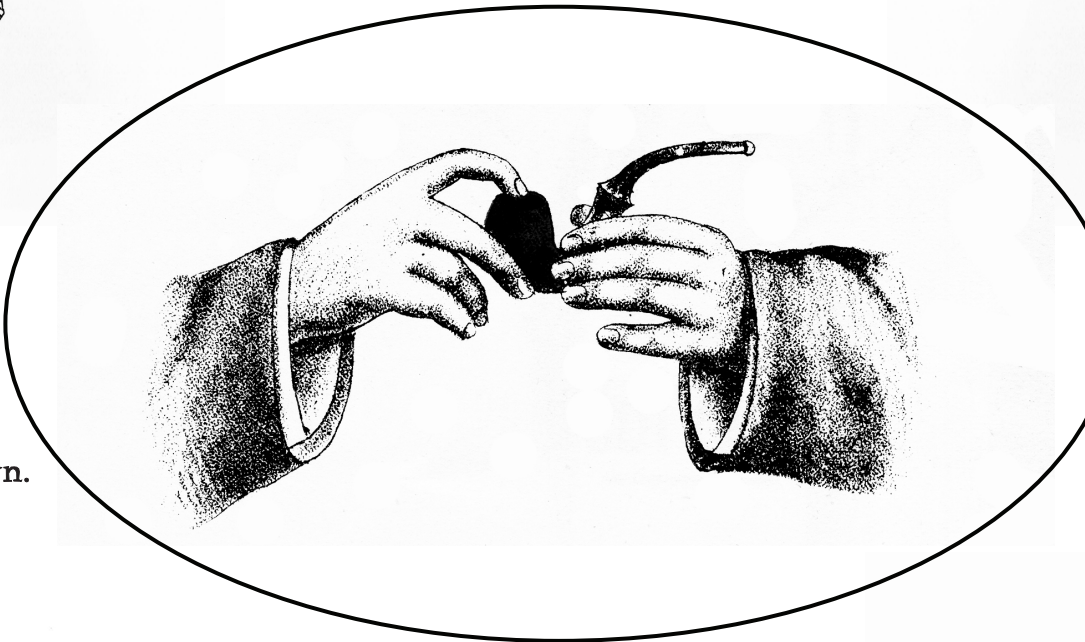

Take a pinch large enough
to fill half the bowl.
Press down firmly
at the front of the chamber,
canting the tobacco
in the direction of the airway
as shown.

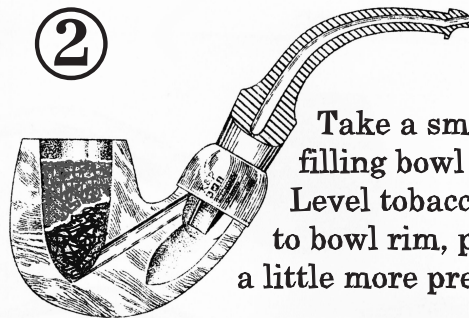

③

Take an even smaller pinch
(which may be unnecessary
in a smaller chamber).
Level tobacco parallel
to bowl rim, using a little
more pressure than before.

②

Take a smaller pinch,
filling bowl two-thirds full.
Level tobacco parallel
to bowl rim, packing with
a little more pressure.
