—HOW TO PACK the SYSTEM PIPE—

KAPP & PETERSON, LIMITED.
DUBLIN.

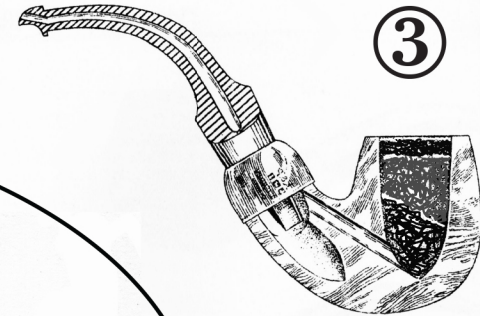

Factory—CUFFE LANE,
ST. STEPHEN'S GREEN

①

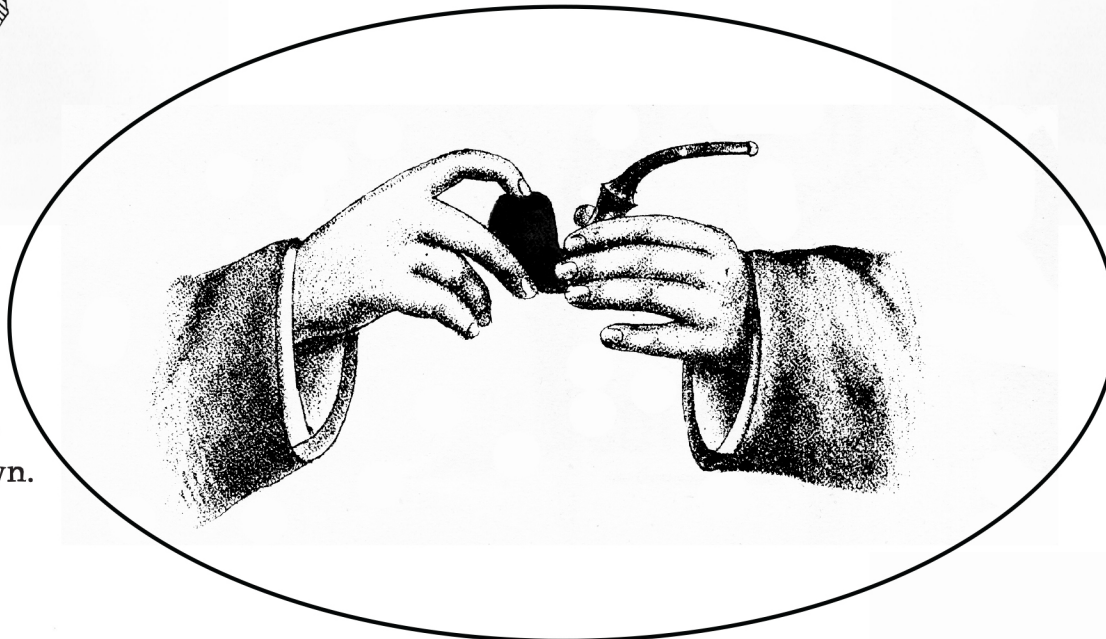

Take a pinch large enough to fill half the bowl. Press down firmly at the front of the chamber, canting the tobacco in the direction of the airway as shown.

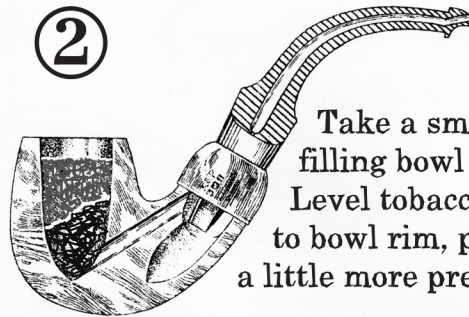

③

Take an even smaller pinch (which may be unnecessary in a smaller chamber). Level tobacco parallel to bowl rim, using a little more pressure than before.

②

Take a smaller pinch, filling bowl two-thirds full. Level tobacco parallel to bowl rim, packing with a little more pressure.
