Peterson
**THE FINEST
HANDMADE PIPES
IN THE WORLD!**

Over a Century of Handmade Perfection

Exquisite pipe-craftsmanship is a time-honoured tradition of the Dublin factory of Kapp & Peterson – Peterson pipes, in fact, have been made in Ireland since before 1875.

It is this expert skill, lavished on fine-quality materials, that has produced 'the king of pipes' for generations. Pipes that have won gold medal after gold medal at many important international exhibitions.

This renowned craftsmanship is still very much in evidence today. And it shows, for example, in the selection of the finest aged briars that are shaped, turned, sanded, polished, buffed and then fitted with the unique Peterson Patent Lip Mouthpiece.

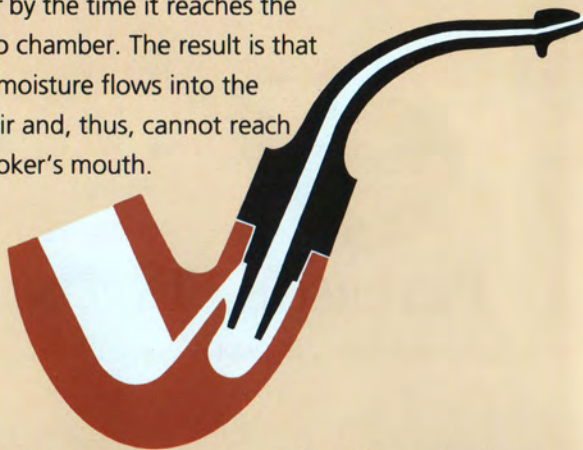

The final product, the Peterson pipe, is cherished all over the world. Enjoyed for its handsome shapes, beautiful balance in the hand or mouth, rich finishes and classical comfort, it is particularly prized for its complete smoking pleasure and satisfaction.

Peterson pipes boast two distinctive features: The Peterson System; and the Peterson Patent Lip Mouthpiece.

The Peterson System

This is the standard bearer of the Peterson pipe family, famous for the unexcelled smoking pleasure it provides.

Often imitated but never equalled, the Peterson System smokes dry, cool and sweet, thanks to the scientific effectiveness of the original design. The heart of the System is the unique graduated bore in the mouthpiece. This makes the suction applied by the smoker *15 times weaker* by the time it reaches the tobacco chamber. The result is that all the moisture flows into the reservoir and, thus, cannot reach the smoker's mouth.

The Peterson Patent Lip Mouthpiece

The Peterson Lip further enhances the effectiveness of the graduated bore by directing the flow of smoke upwards and away from the tongue. This achieves a uniquely even distribution of smoke and virtually eliminates any chance of tongue-bite or bitterness.

Furthermore, the shape is scientifically contoured so that the tongue rests comfortably in the depression under the opening. Each "P-Lip" mouthpiece is made from superior quality vulcanite.

THE RETURN OF SHERLOCK HOLMES

When Peterson first introduced the Sherlock Holmes pipe in 1987 to celebrate the centenary of the Great Detective, so began the best-selling mystery in pipe history.

And the mystery deepens... because in response to world-wide requests, Peterson is introducing *'The Return of Sherlock Holmes'* with the *'The Rathbone'* in a choice of several finishes.

'THE RATHBONE'
SMOOTH

'THE RATHBONE'
HANDCARVED

Like the first Sherlock Holmes Collection, Peterson will be adding six others to complete a 7-Day Pipe Set. So watch out for clues...

SUPERB SHAPE RANGE

Peterson manufacture thousands of different pipes to suit the tastes and preferences of discerning pipe smokers worldwide. Most types are, of course, also available with standard fishtail mouthpieces.

This brochure, therefore, is merely representative of the tremendous variety of pipes available at any given time as Peterson continues to live up to its original and long-famous motto: "The Thinking Man Smokes A Peterson."

SILVER CAP AND SILVER MOUNTED PIPES

By Irish law, the standard of gold, silver and platinum articles must be assayed, i.e. tested, by the Company of Goldsmiths of Dublin (under the Charter granted by King Charles 1 of England in 1637) at the Assay Office in Dublin Castle.

The legal standard of purity having been established (sterling silver 0.925), the articles are stamped with a series of marks called "Hallmarks".

Peterson Hallmarks

As well as the Peterson name and the words 'sterling silver', all Peterson Silver Cap and Silver Mounted Pipes carry three distinguishing marks:

1. The symbol of 'Hibernia' (the Latin name for Ireland), the country of manufacture.
2. The Harp Crowned is the fineness mark denoting the high quality (purity) of the silver used.
3. The Date Letter Code denoting the year in which the silver was hallmarked.

CLASSIC PETERSON SHAPES

Each year, the number of shapes selected varies a little according to current demand. However, all our series offer a good selection of our complete shape range, some of which are shown below.

KAPP & PETERSON
MANUFACTURERS of PETERSON PIPES since 1875
